DN-500C | CD / iPod® Player

2013/02/11 - Lightning Connector

Tech Note

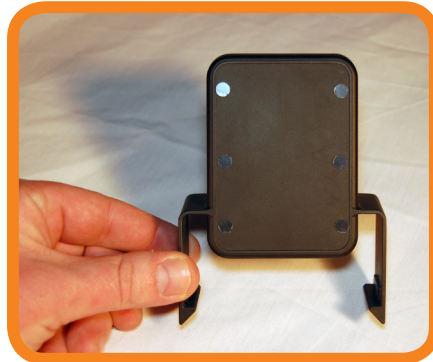

What you'll need:

This is the **Apple MD823ZM/A**. It is available just about any major CE store or outlet for \$29.00.

On apple.com:
<http://store.apple.com/us/product/MD823ZM/A/lightning-to-30-pin-adapter?fnode=45>

This is not supplied by D&M Professional

The dock support adapter that came with your DN-500C CD/iPod® Player to support the extra height of the new iOS device with adapter.

note: *This dock adapter was not included in the first few production lots of the DN-500C. It should be made available after March 2013.*

Should you require one and did not receive it with your unit, please contact tech support at techsupport@d-mpro.com

Your iOS device with the new lightning connector.

Step 1. Connect the 30-pin to lightning adapter to your iOS device.

Step 2. Snap the adapter onto the tray of the DN-500C.

Step 3. Now place the iOS device back on the tray!
